

“The electrical Car in it’s Infrastructure” - enabler and interfaces

25.11.2008 Berlin

Siemens AG, CT T P,
Prof. Dr.-Ing. Gernot Spiegelberg

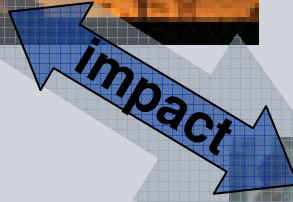

Challenges of tomorrow

clean energy generation

smart energy distribution
and transmission

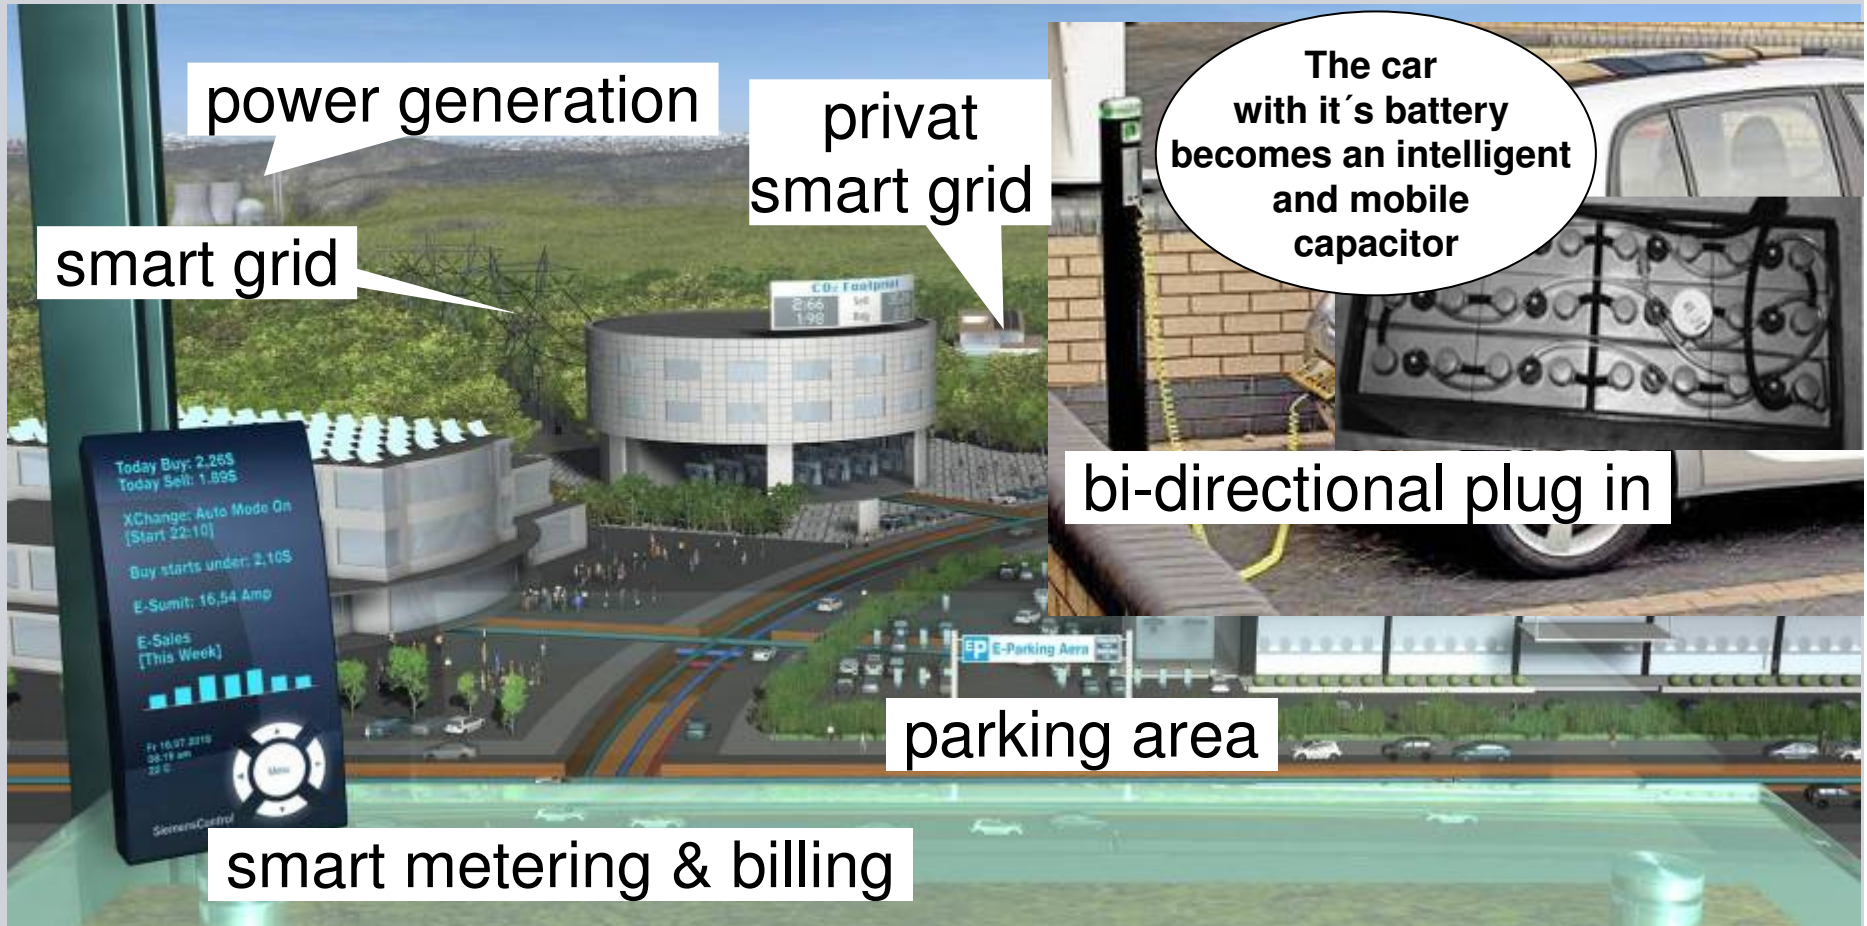

smart and clean
mobility

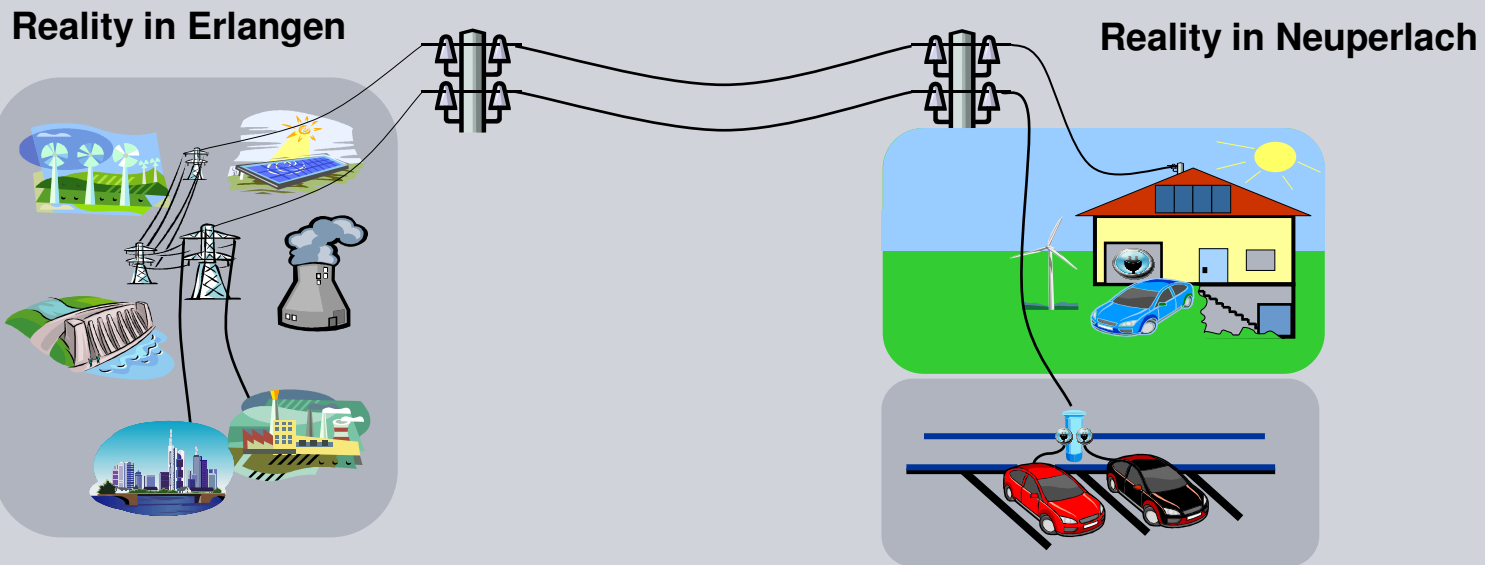

... a better way to live

Several players have to be a part in the game

We built up a model of the e-Car ecosystem to simulate the market behavior within the power grid

**A new kind of cars will come.....
..... it may be a kind of trojanian horse !**
